Re: Broad Based Black Economic Empowerment (B-BEE) Compliance

This letter serves to verify that of the funds received by Champ from donors at least 75% of the value thereof is used directly to benefit black people. Most of the children that benefit are classified as orphaned and / or vulnerable and meet the demographic requirements of the BEE standards.

Champ currently supports many children in South Africa, mostly Gauteng, who have been orphaned, made vulnerable and affected in numerous ways by the AIDS pandemic. All of these children come from disadvantaged and impoverished backgrounds. Champ's ultimate beneficiaries are these children that receive services, such as food, counselling and aftercare.

Champ would like to thank you for your donations and sponsorships to improve the lives of impoverished children in South Africa.

Yours sincerely,

Anton van Zyl
Chairman
